As Mr Jackson often reiterates, the logistics business has neither the time, inclination, nor sees a need to give any more than a very basic knowledge of what the new recruit should be doing. An assumption that a Satnav or the company guidance system is all they need he sees as being misguided and bad for business. On paper the business is simple. In reality it is not. Drivers must drive responsibly and safely, obey traffic laws, and never drink and drive. Finally, make sure that you and your passengers are properly buckled up - it's the law! Today's vehicles are loaded with technology that

was unheard of even a decade ago. Systems that warn when you are drifting from your lane, assist you in parallel parking, automatically brake in emergency situations and provide 360 degrees of vision around the vehicle via a camera are becoming standard, even on moderately priced vehicles. As remarkable as these leaps in automotive technology are, the truth is that the most important safety feature in any vehicle remains you as the driver. Therefore, it is to your benefit to continue improving and expanding your knowledge of traffic laws and safe driving practices. Driving is a privilege. Once you have been issued a driver's license, you have the responsibility to continually demonstrate the skill and knowledge to drive safely. Whether you have been behind the wheel for decades or are just starting to venture out, driving is a discipline that requires judgment, knowledge, physical and mental self-awareness, and practice. "What Every Driver Must Know" is an excellent resource for assisting you on this lifelong journey. CONCISE CAR The rubrics of CAR are similar to other Cognitive Apprenticeship Methodologys: Watch It Do It Know It. CARs unique power to facilitate recovery is derived by adding the ingredients of The Way of Analogy and The Concept of The Singular. You might want to start by first reading Chapter 5 in Bingo: The chairs fixed, relax and sit in it as a way to preempt any confusion about how The Way of Analogy is being used in Relationship Associations. Here is the traditional (Thomas Aquinas) Way of Analogy: Red is Red: and yet a horse is Red, with a horsey Redness. CAR melds this with The Concept of the Singular [i.e. Remember Philosophy 101. The Universal Chair of the Greeks was the perfect chair; then came the Particular chair (Lounge Chairs); then came the Singular chair (your Dads old Morris chair with the cigar burns on the right arm)] to get its synergism. CAR is a Singular Analogous Relationship Driven Recovery modality and as such, less easily defined than experienced. CAR methodology is already at work within you even before you start to read these books. You already know (you are ultimately aware) that you are within the answer. The Good News is you are in Recovery now! This is proclaimed at the beginning of all three books. The first step in the acquisition of wisdom is silence, the second listening, the third memory, the fourth practice, the fifth teaching others.
