Snail's Silly Adventures Apr 12 2022 When Snail leaves his bucket, he discovers a whole, wide world in this illustrated bind-up of sweet and funny chapter books Snail Has Lunch and Snail Finds a Home. Snail is a merry little mollusk who lives in a rusty bucket. Day after day, rain or shine, snail doesn't move—and that suits him just fine. But when his bucket is turned over, his life takes a topsy-turvy turn. A journey through the vegetable garden opens up a whole world of new friends, new foods, and maybe even a little danger. Can Snail find happiness out here, or will he wish he never left his bucket? In his next adventure, Snail eats too many strawberries—his favorite food—and makes himself sick. His best friend Ladybug tells him he needs to find a forever home away from the tempting, yummy, red fruit. But Snail's journey puts him in the path of a hungry chicken! Will he make it to his new home or be a tasty treat for this feathered, famished fiend? Filled with simple text, speech balloons, and engaging illustrations, these easy-to-follow stories are a blend between a picture book and a chapter book, making it an ideal bridge for independent readers.

Public Health Engineering Abstracts Jan 17 2020

Learning Through School Science Investigation in an Indigenous School Jul 23 2020 This book presents the findings of a case study conducted in a M?ori medium school where a space was created for P?taiao (Western science) teaching and learning from year 1 to 13. Science is currently taught in Te Reo M?ori in primary school and in English in secondary school, and evidence suggests that students are engaging in science education, learning to investigate, and achieving in science. In New Zealand, most students attend English medium state schools; however, approximately 15% of indigenous students attend M?ori medium schools. These schools are underpinned with Kura Kaupapa M?ori philosophy, which is culturally specific to M?ori and aims to revitalise the M?ori language, and M?ori knowledge and culture. M?ori students' engagement and achievement continues to be a challenge for both mainstream and M?ori medium schools, teachers and students due to lack of access to science teachers who can teach in Te Reo M?ori. School leaders and whanau (families) believed that by year 9 (age 13) their students had developed their identity as M?ori, and were proficient in Te Reo M?ori. They wanted their students to have the option to learn science, experience success and have the choice to continue in science, so they made the difficult decision for science to be taught in English in secondary school. The book discusses how teachers in indigenous schools, who have extensive knowledge of culture and context specific pedagogies, can gain confidence to teach science through collaboration with and support from researchers with whom they have developed strong professional relationships.

The Story of Fish and Snail Jan 29 2021 Every day, Snail waits for Fish to come home with a new story. Today, Fish's story (about pirates!) is too grand to simply be told: Fish wants to show Snail. But that would mean leaving the familiar world of their book—a scary prospect for Snail, who would rather stay safely at home and pretend to be kittens. Fish scoffs that cats are boring; Snail snaps back. Is this book too small for the two feuding friends? Could this be THE END of The Story of Fish and Snail? Deborah Freedman, author of Blue Chicken, has created a sweet and playful story about friendship that truly jumps off the page.

The Truth about Science Jan 09 2022

The Tin Snail Nov 07 2021 It's 1938. In order to save his dad's job, Angelo needs to invent a brand-new car that can carry: a farmer his wife two chickens a flagon of wine and a dozen eggs across a bumpy field without breaking a single egg . . . and without the enemy discovering his top-secret design! Here's the extraordinary story – inspired by real events – of how one little car changed history.

No Pets Allowed! A Bloomsbury Reader Mar 31 2021 Book Band: Lime, ideal for ages 6+ A funny, uplifting tale about family and the healing power of pets from internationally published author, Chitra Soundar. Keva loves helping out at Grandpa's pet adoption centre. When he has to go to hospital, she knows that his best friend, Atlas the tortoise, is just the thing to cheer him up. It's too bad that the rude hospital manager, Mr Sallow, has banned all pets from the ward! But when Keva notices a picture on his desk, she hatches a plan that she hopes will change his mind... This story features lively black-and-white illustrations by Fay Austin. The Bloomsbury Readers series is packed with book-banded stories to get children reading independently in Key Stage 2 by award-winning authors like double Carnegie Medal winner Geraldine McCaughrean and Waterstones Prize winner Patrice Lawrence. With engaging illustrations and online guided reading notes written by the Centre for Literacy in Primary Education (CLPE), this series is ideal for home and school. For more information visit www.bloomsburyreaders.com. 'Any list that brings together such a quality line up of authors is going to be welcomed ... Bloomsbury Readers are aimed squarely at children in Key Stage 2 and designed to support them as they start reading independently and while they continue to gain confidence and understanding.' Books for Keeps

The Descent of Man Jun 02 2021 'Grayson Perry for King and Queen of England' Caitlin Moran Grayson Perry has been thinking about masculinity - what it is, how it operates, why little boys are thought to be made of slugs and snails - since he was a boy. Now, in this funny and necessary book, he turns round to look at men with a clear eye and ask, what sort of men would make the world a better place, for everyone? What would happen if we rethought the old, macho, outdated version of manhood, and embraced a different idea of what makes a man? Apart from giving up the coronary-inducing stress of always being 'right' and the vast new wardrobe options, the real benefit might be that a newly fitted masculinity will allow men to have better relationships - and that's happiness, right? Grayson Perry admits he's not immune from the stereotypes himself - as the psychoanalysts say, 'if you spot it, you've got it' - and his thoughts on everything from power to physical appearance, from emotions to a brand new Manifesto for Men, are shot through with honesty, tenderness and the belief that, for everyone to benefit, upgrading masculinity has to be

something men decide to do themselves. They have nothing to lose but their hang-ups.

Let's Look at Snails Aug 16 2022 Learn all about snails, including how they make slime, where they live, and what they eat.

The Sound of a Wild Snail Eating Feb 27 2021 Winner of The Saroyan International Prize for Writing, the John Burroughs Medal, and the National Outdoor Book Award in Natural History Literature "Brilliant." —The New York Review of Books "Exquisite." —The Huffington Post "Magical." —Minneapolis Star Tribune In a work that beautifully demonstrates the rewards of closely observing nature, Elisabeth Tova Bailey shares an inspiring and intimate story of her encounter with a *Neohelix albolabris*—a common woodland snail. While an illness keeps her bedridden, Bailey watches a wild snail that has taken up residence on her nightstand. As a result, she discovers the solace and sense of wonder that this mysterious creature brings and comes to a greater understanding of her own place in the world. Intrigued by the snail's molluscan anatomy, cryptic defenses, clear decision making, hydraulic locomotion, and courtship activities, Bailey becomes an astute and amused observer, offering a candid and engaging look into the curious life of this underappreciated small animal. *The Sound of a Wild Snail Eating* is a remarkable journey of survival and resilience, showing us how a small part of the natural world can illuminate our own human existence, while providing an appreciation of what it means to be fully alive.

Snail Mail Sep 24 2020 A long, long time ago, before email and texting, the mail was delivered in a much slower way—it was called Snail Mail (because some thought it was delivered by a snail). Although it took much longer, everyone agreed that letters were a little more special when they were delivered by Snail Mail. They might be handwritten. They might include a drawing. They might even contain a surprise inside! One such letter was sent by a Girl to the Boy she loved, and it was up to four special snails to deliver her card across the country. The snails trek across the country—through desert heat and dangerous blizzards, across mountains and plains, through cities and forests—and along the way, they find that taking time to slow down and look around makes the journey all the more beautiful. Snail Mail's playful and educational story encourages kids to have slow living, and to approach life with determination and wonder. Julia Patton's rich illustrations showcase America's diverse terrain and national monuments from coast to coast. Kids and parents alike will delight in this celebration of America's beauty and the power of a simple handwritten letter.

A World in a Shell Feb 10 2022 Following the trails of Hawai'i's snails to explore the simultaneously biological and cultural significance of extinction. In this time of extinctions, the humble snail rarely gets a mention. And yet snails are disappearing faster than any other species. In *A World in a Shell*, Thom van Dooren offers a collection of snail stories from Hawai'i—once home to more than 750 species of land snails, almost two-thirds of which are now gone. Following snail trails through forests, laboratories, museums, and even a military training facility, and meeting with scientists and Native Hawaiians, van Dooren explores ongoing processes of ecological and cultural loss as they are woven through with possibilities for hope, care, mourning, and resilience. Van Dooren recounts the fascinating history of snail decline in the Hawaiian Islands: from deforestation for agriculture, timber, and more, through the nineteenth century shell collecting mania of missionary settlers, and on to the contemporary impacts of introduced predators. Along the way he asks how both snail loss and conservation efforts have been tangled up with larger processes of colonization, militarization, and globalization. These snail stories provide a potent window into ongoing global process of environmental and cultural change, including the largely unnoticed disappearance of countless snails, insects, and other less charismatic species. Ultimately, van Dooren seeks to cultivate a sense of wonder and appreciation for our damaged planet, revealing the world of possibilities and relationships that lies coiled within a snail's shell.

The Worm Book Nov 19 2022 Worms are the latest (as well as, of course, perhaps the oldest!) trend in earth-friendly gardening, and in this handy guide, the authors of *DEAD SNAILS LEAVE NO TRAILS* demystify the world of worm wrangling, with everything you need to know to build your own worm bin, make your garden worm-friendly, pamper your soil, and much much more.

How to See Nature Dec 08 2021 "Pack soup, cheese and a copy of *How To See Nature* by the Bard of Wenlock Edge and Guardian diarist." John Vidal With a title taken from the 1940 Batsford book, this is nature writing for the modern reader. Evans weaves historical, cultural and literary references into his writing, ranging from TS Eliot to Bridget Riley, from Hieronymus Bosch to Napoleon. It is a book both for those that live in the country and those that don't, but experience nature every day through brownfield edge lands, transport corridors, urban greenspace, industrialised agriculture and fragments of ancient countryside. The essays include the *The Weedling Wild*, on the wildlife of the wasteland: ragwort, rosebay willowherb, giant hogweed and the cinnabar moth; *Gardens of Light*, about the creatures to be found under moonlight: pipistrelle bats, lacewings and orb-weaver spider; *The Flow*, with tales from the riverbank, estuaries and seas, including kingfisher, minnow, otter and heron. *The Commons* looks at meadowland with a human footprint, with the Adonis blue butterfly, horseshoe vetch, skylark, black knapweed and the six-belted clearwing moth. The author also looks at the wildlife returned to Britain, such as wild boar and polecats, and finds nature in and around landscapes as varied as a domestic garden or a wild moor. The book ends with an alphabetical bestiary, an idiosyncratic selection of British wildlife based on the author's personal encounters.

Snail's Legs Oct 18 2022 Snail and Frog have a race to decide who has the strongest legs, and will have the honour of helping the King's chef prepare a surprise for the King.

Dead Daisies Make Me Crazy Dec 20 2022 At long last, you can grow your tomatoes and eat them too with the help of this primer on gardening with fewer chemicals. Gardeners and homeowners alike need simple and safe ways to stop unwanted pests and plant diseases while allowing nature to flourish. A companion to the highly successful *DEAD SNAILS LEAVE NO TRAILS*, *DEAD DAISIES* picks up where the first book left off, offering a wide range of new tips and techniques for effective organic gardening, as well as advice on how to attract beneficial wildlife to your natural space.

The Worm Book Jun 21 2020 Worms are the latest (as well as, of course, perhaps the oldest!) trend in earth-friendly gardening, and in this handy guide, the authors of *DEAD SNAILS LEAVE NO TRAILS* demystify the world of worm wrangling, with everything you need to know to build your own worm bin, make your garden worm-friendly, pamper your soil, and much much more.

Ugh, I'm a Slug Oct 14 2019 A humorous picture book about a slug who is too shy and "ugly" to make friends. Relatable to children who lack confidence in themselves and fear rejection. Dug Slug-Kowski wishes he could be a snail instead of the ugly slug he thinks he is. He longs to have all the friends and fun that snails have. That's when Dug has his "Aha Moment"... he could be a snail too! The only thing he really needs is a shell. And so Dug's big adventure of the great shell hunt begins! Through twists and turns, surprises and mishaps, nothing will stop this determined slug. Will Dug be "slug-cessful" or will he be "a snailure"? You be the judge as you follow Dug's amusing journey, narrated by Dug himself. Fast, funny and a snail of a good time!* *No snails or slugs were harmed in the making of this book. In fact, they lived happily ever after.

Encyclopedia of Parasitology: A-M Feb 16 2020 Knowledge in the field of parasitology must be kept at a high level and up to date in order to fight a parasitosis as quickly and effectively as possible. The third edition of this, one of Springer's renowned and authoritative Major Reference Works, contributes to these goals in several ways. First, the number of entries has been increased by about 30%. Secondly the content has been improved even more by adding additional tables and figures. Thirdly, the extensive linking between definitions and essays facilitates information within a minimum of time. More than 40 international contributors, who are well known specialists in their fields, give a comprehensive review of all parasites and therapeutic strategies in veterinarian and human parasitology.

Gluey Jul 15 2022 When Celerina the bunny moves into a new house, she doesn't realize that there was already a snail living there and that he is the "magic" that repairs anything she breaks, and even the house itself.

Are You a Snail? Nov 26 2020 This introduction to the world of the snail aims to bring this familiar, small creature sympathetically to life. Young children should be fascinated by this tiny life found just outside their back door.

Legend of the Golden Snail, The Jun 14 2022 Inspired by the tale of a magical Golden Snail banished to the Ends of the Earth by a Grand Enchanter, a young boy named Wilbur sets out on a daring voyage to find the legendary snail and claim it as his own. Along the way he encounters strange creatures and overcomes many challenges. Finally he reaches the Ends of the Earth, but what he finds there is not quite as he imagined.

Norman the Slug with the Silly Shell Sep 17 2022 Norman, a slug who wants to be a snail, is determined to find something that will work as a shell.

Chemical Ecology in Aquatic Systems Dec 28 2020 However, our knowledge of this "chemical network" is still negligible.

A Virus Keeps Us Home Oct 26 2020 Finally available in English: A virus keeps us home. This activity book for children supports families in times of pandemic crisis. Snowy the Snail is bored. Even the land of the snails has been

affected by a virus and all the snails must stay in their snail homes. Snowy the snail is miserable. Even the best lettuces no longer taste any good. She has not seen any of her friends for days and she misses them a lot. Snail school and snail kindergarten are also closed, the playgrounds are blocked off and many snail parents and adults have to work from home. Gosh, what a challenge. And then Snowy the Snail had a great idea. She would put together, for you and your friends, lots of different game ideas for inside and outside, adventurous challenges for all kinds of weather, recipes, experiments, drawing and craft suggestions, ideas to help fill the time at home. Snowy the snail thinks long and hard about the feeling of boredom and how she can stay in contact with her friends. With countless creative ideas bubbling up inside her Snowy the snail no longer gets bored. A virus keeps us home makes this current homebound situation a little bit more child friendly. All of the fun yet simple ideas in this book are intended for 3 -10 year olds and are suitable for in and around the home. The best activity book for children who are stuck at home because of a virus.

The Snail with the Right Heart Apr 19 2020 Based on a real scientific event and inspired by a beloved real human in the author's life, this is a story about science and the poetry of existence; about time and chance, genetics and gender, love and death, evolution and infinity -- concepts often too abstract for the human mind to fathom, often more accessible to the young imagination; concepts made fathomable in the concrete, finite life of one tiny, unusual creature dwelling in a pile of compost amid an English garden. Emerging from this singular life is a lyrical universal invitation not to mistake difference for defect and to welcome, across the accordion scales of time and space, diversity as the wellspring of the universe's beauty and resilience.

The Snail and the Whale Mar 19 2020 "How I long to sail!" said the tiny snail. One little snail longs to see the world and hitches a lift on the tail of an enormous whale. Together they go on an amazing journey, past icebergs and volcanoes, sharks and penguins, and the little snail feels so small in the vastness of the world. But when disaster strikes and the whale is beached in a bay, it's the tiny snail's big plan that saves the day. *The Snail and the Whale* is a delightful tale of adventure and friendship by the unparalleled picture-book partnership of Julia Donaldson and Axel Scheffler, creators of *The Gruffalo*. This handy board book format is perfect for younger readers. It features the classic story with a stunning new cover design and beautiful finish, making it a must-have for even the smallest Donaldson and Scheffler fans! Also available in board book format and with striking new cover designs are: *The Gruffalo*, *The Gruffalo's Child*, *Room on the Broom*, *The Smartest Giant in Town*, *Monkey Puzzle*, *Charlie Cook's Favourite Book*, and *A Squash and a Squeeze*.

Dead Snails Leave No Trails, Revised Feb 22 2023 A practical guide to repelling indoor and outdoor pests using organic methods, updated with new information on getting rid of bedbugs and dust mites, plus includes updated online resources. If you've ever had a swarm of fruit flies in your kitchen or a gopher wreaking havoc in your yard, you may have wondered what a conscientious gardener or homeowner can do short of heavy-duty chemical warfare. *Dead Snails Leave No Trails* is a comprehensive guide to repelling both indoor and outdoor pests using organic methods—it's the perfect DIY solution to eliminate unwelcome visitors in your home and garden while keeping yourself, your family, and the environment safe from harmful chemicals. With a few easy-to-find items, you'll learn how to: • Make your own all-purpose pest repellents with simple ingredients like chile peppers and vinegar • Use companion planting to attract beneficial insects and animals or repel harmful ones • Keep four-legged intruders—including squirrels, deer, rabbits, and skunks—away from your prized vegetables and flowers • Safely eliminate ants, roaches, and rodents from your house or apartment • Protect your pets from critters like ticks and fleas This revised edition contains newly updated information on today's pest epidemics, like bedbugs, as well as new online resources for finding beneficial organisms that act as predators for specific pests. Full of tips, tricks, and straightforward instructions, *Dead Snails Leave No Trails* is the most user-friendly guide to indoor and outdoor natural pest solutions.

Once a Week May 01 2021

The Juvenile Instructor May 21 2020

Endangered Metaphors Jul 03 2021 When the last speaker of a language dies, s/he takes to oblivion the memories, associations and the rich imagery this language community has once lived by. The cultural heritage encoded in conventional linguistic metaphors, handed down through generations, will be lost forever. This volume consists of fifteen articles about metaphors in endangered languages, from Peru to Alaska, from India to Ghana. The empirical data demonstrate that the assumptions of contemporary cognitive linguistic theory about "universal" metaphors and the underlying cognitive processes are still far from plausible, since culture plays an important role in the formation of metaphors. Moreover, that theory has been based on knowledge of metaphors in some standard languages. Indigenous and other minority languages, especially mainly orally used ones, have been disregarded completely. Besides researchers and students in linguistics, especially in metaphor and figurative language theory, this compilation provides food for thought for scholars in large fields of cultural studies, ranging from anthropology and ethnology to folkloristics and philosophy.

Snail Trail May 13 2022 Slimy Snail takes a trip around the yard, overcoming different obstacles on the way.

Dead Snails Leave No Trails Jan 21 2023 This comprehensive guide to controlling pests in the home and garden is packed with simple and effective tips on how to avoid chemical pesticides that can kill off beneficial insects.

Nancarrow and Taylor provide useful information on how to let nature's balance work in one's favor by allowing helpful creatures such as bats, hummingbirds, and lizards into the yard and garden.
