To Hide Your Love Away Provides emerging readers with multiple opportunities to practice reading high-frequency words used in simple text. A finalist for the New York Public Library Fiction Award A Grand Prix Littéraire of the Association of Caribbean Writers Selection Named a Best Book of 2016 by: New York Times, NPR, Buzzfeed, San Francisco Chronicle, The Root, Book Riot, Kirkus, Amazon, WBUR's 'On Point' and Barnes & Noble In this radiant, highly anticipated debut, a cast of unforgettable women battle for independence while a maelstrom of change threatens their Jamaican village. Capturing the distinct rhythms of Jamaican life and dialect, Nicole Dennis-Benn pens a tender hymn to a world hidden among pristine beaches and the wide expanse of turquoise seas. At an opulent resort in Montego Bay, Margot hustles to send her younger sister, Thandi, to school. Taught as a girl to trade her sexuality for survival, Margot is ruthlessly determined to shield Thandi from the same fate. When plans for a new hotel threaten the destruction of their community, each woman – fighting to balance the burdens she shoulders with the freedom she craves – must confront long-hidden scars. From a much-heralded new writer, *Here Comes the Sun* offers a dramatic glimpse into a vibrant, passionate world most outsiders see simply as paradise. Suicide, depression, addiction—how you can get help and find peace is the beating heart of this memoir, "Here Comes The Sun." As the author tries to escape from her pain and from the effects of child abuse through drugs and drinking, she finds herself lost—feeling unworthy and alone. Depressed and suicidal, she tries running away from the torture and from the memories of sexual abuse. While she tries to run away from her pain, she finds a seemingly endless amount of trouble to get into. Her journey takes you through Ecuador, Cuba, Mexico, and Canada on her search for love. Through her prose, journals, and poems, she speaks her innermost private thoughts—her true feelings of child abuse and suicide become open. She is the voice for all the ones who cannot speak as she clearly expresses her deepest emotions. This is a memoir that is serious, yet it is entertaining and funny. In this story, the author reveals how she finds her way out of the dark night and into the sun, showing you how to get help and find peace. A moving, compelling memoir about growing up and escaping the tragic legacy of mental illness, suicide, addiction, and depression in one of America's most famous families: the Hemingways. She opens her eyes. The room is dark. She hears yelling, smashed plates, and wishes it was all a terrible dream. But it isn't. This is what it was like growing up as a Hemingway. In this deeply moving, searingly honest new memoir, actress and mental health icon Mariel Hemingway shares in candid detail the story of her troubled childhood in a famous family haunted by depression, alcoholism, illness, and suicide. Born just a few months after her grandfather, Ernest Hemingway, shot himself, it was Mariel's mission as a girl to escape the desperate cycles of severe mental health issues that had plagued generations of her family. Surrounded by a family tortured by alcoholism (both parents), depression (her sister Margaux), suicide (her grandfather and four other members of her family), schizophrenia (her sister Muffet), and cancer (mother), it was all the young Mariel could do to keep her head. In a compassionate voice she reveals her painful struggle to stay sane as the youngest child in her family, and how she coped with the chaos by becoming OCD and obsessive about her food, schedule, and organization. The twisted legacy of her family has never quite let go of Mariel, but now in this memoir she opens up about her claustrophobic marriage, her acting career, and turning to spiritual healers and charlatans for solace. Ultimately Mariel has written a story of triumph about learning to overcome her family's demons and developing love and deep compassion for them. At last, in this memoir she can finally tell the true story of the tragedies and troubles of the Hemingway family, and she delivers a book that beckons comparisons to Mary Karr and Jeanette Walls. 'The sharpest memoir written by one of the Beatles' inner circle.' Observer Derek Taylor's iconic memoir is a rare opportunity to be immersed in one of the most whirlwind music sensations in history: Beatlemania. As *Time Goes By* tells the remarkable story of Taylor's trajectory from humble provincial journalist to loved confidant right at the centre of the Beatles' magic circle. In charming, conversational prose, Taylor shares anecdotes and reminiscences so vivid and immediate that you find yourself plunged into the beating heart of 1960s counterculture. Whether watching the debut performance of 'Hey Jude' in a country pub or hearing first-hand gossip about a star-studded cast of characters, Taylor's unique narrative voice forges an autobiography like no other. Reissued here in a brand new edition with a foreword by celebrated writer Jon Savage, this long-admired memoir is a cult classic of the genre awaiting a new readership. Capturing the distinct rhythms of Jamaican life and dialect, Nicole Dennis- Benn pens a tender hymn to a world hidden among pristine beaches and the wide expanse of turquoise seas. At an opulent resort in Montego Bay, Margot hustles to send her younger sister, Thandi, to school. Taught as a girl to trade her sexuality for survival, Margot is ruthlessly determined to shield Thandi from the same fate. When plans for a new hotel threaten their village, Margot sees not only an opportunity for her own financial independence but also perhaps a chance to admit a shocking secret: her forbidden love for another woman. As they face the impending destruction of their community, each woman—fighting to balance the burdens she shoulders with the freedom she craves—must confront long-hidden scars. From a much-heralded new writer, *Here Comes the Sun* offers a dramatic glimpse into a vibrant, passionate world most outsiders see simply as paradise. *Here Comes the Sun* looks at how social reformers, planners and architects in the early twentieth century tried to remake the city in the image of a sunlit, ordered utopia. While much has been written about architectural modernism, Worpole concentrates less on buildings and more on the planning of the spaces in-between – the parks, public squares, open-air museums, promenades, public pools and other public leisure facilities. Life in the open was of particular concern to early urban planners and reformers, with their dreams of release from the confines of overcrowded, unsanitary slums. Picturing youthful working-class bodies made healthy by exercise and tanned by the sun, they imagined an escape route from cities. Worpole demonstrates how open-air public spaces became sought-after commissions for many early modernist architects in the early 1900s, resulting in the transformation of the European cityscape. "...a fascinating account of the political idealism that informed urban planning for the first two-thirds of the twentieth-century...full of insights into how public space influences a sense of belonging and ownership."—The Guardian "This is one of those books you stroke lovingly. Open it, and there is page after page of beautiful photographs...this book

combines history, society, politics, environment and place in a well-written and emotive text. The strength of the book is the way it crosses these traditional boundaries and disciplines."—Town and Country Planning "Drawing on architectural theories, philosophy, literature and even film-making, Worpole's book is wide-ranging and erudite and should be of interest to the layperson as well as to the urban planner. It is also elegantly written and complemented by a mixture of black and white and colour photographs to provide a visual emphasis to the points he raises."—N16 Magazine

Two sisters are suddenly sent from their home in Brooklyn to Barbados to live with their grandmother, in this stunning debut novel *This* lyrical novel of community, betrayal, and love centers on an unforgettable matriarchal family in Barbados. Two sisters, ages ten and sixteen, are exiled from Brooklyn to Bird Hill in Barbados after their mother can no longer care for them. The young Phaedra and her older sister, Dionne, live for the summer of 1989 with their grandmother Hyacinth, a midwife and practitioner of the local spiritual practice of obeah. Dionne spends the summer in search of love, testing her grandmother's limits, and wanting to go home. Phaedra explores Bird Hill, where her family has lived for generations, accompanies her grandmother in her role as a midwife, and investigates their mother's mysterious life. This tautly paced coming-of-age story builds to a crisis when the father they barely know comes to Bird Hill to reclaim his daughters, and both Phaedra and Dionne must choose between the Brooklyn they once knew and loved or the Barbados of their family. Jackson's Barbados and her characters are singular, especially the wise Hyacinth and the heartbreaking young Phaedra, who is coming into her own as a young woman amid the tumult of her family. Praise for *The Star Side of Bird Hill* "Jackson has written a first novel full of heart and heartbreak, a novel about going home, about the ties that bind three generations of women across years and despite absence. It is a bittersweet lesson in learning to recognize love." —Ayana Mathis, author of *The Twelve Tribes of Hattie* (Oprah's Book Club 2.0 selection) "Naomi Jackson has written a tender novel exploring the complexities of motherhood and childhood. *The Star Side of Bird Hill* holds together opposing elements—the book is quiet in the telling, but the story being told is sharp and vibrant. It is as much a story of the fears of childhood as it is a story about welcoming old age with optimism. A book that knows death and discovery. A book laced with pain but shimmering with hope. With care, the narrative addresses huge issues, such as mental illness, mortality, sexuality, and, at its very core, what it means to love another person as they are." —Tiphonie Yanique, author of *Land of Love and Drowning*

An inspirational and heart-wrenching memoir of fame, schizophrenia, struggle and love by Sunnyboys frontman Jeremy Oxley and his wife Mary Oxley Griffiths. Jeremy Oxley was diagnosed with schizophrenia aged 22, at the height of his fame as singer of the popular band Sunnyboys. Terrified and in denial, he tried to hide his diagnosis from family, band mates and friends, who attributed his erratic and sometimes terrifying behaviour to drug and alcohol abuse. Following harrowing experiences with the woeful mental health services of the day, Jeremy took himself off his prescription drugs and self-medicated with alcohol, gradually alienating friends and family alike till he became a hermit living in a small town in New South Wales, shut off from any kind of life or support. A Sunnyboys fan, Mary Griffiths was a nurse who had been widowed for five years with young twin boys. After being shocked to discover how Jeremy was living, she and her sons determined to find him and help him. At their first meeting, Mary was able to see through Jeremy's illness and recognise signs of the sensitive, beautiful and frightened man within. Her boys instantly loved him and he in turn was immediately calm around them. Jeremy's willingness to get well under Mary's guidance was driven by a deep desire to have the things we all mostly take for granted: a loving family, security, and control of his health and life. Slowly, painfully, but together, Jeremy and Mary put everything into reclaiming his life and building a family. That struggle is told here for the first time by Mary and Jeremy, whose distinctive voices trace Jeremy's remarkable journey from darkness to the light, and from the depths of despair to hope and love. It will move and inspire all who read it. (Harp). A beautiful arrangement for lever or pedal harp by Sylvia Woods. 'Illuminating!' Professor Brian Cox 'Every Steve Jones book is a masterclass in clear and captivating writing with tantalising detours into beguiling anecdotes. Here Comes the Sun is dense with ideas and stories and, like all his books, it will change the way you see the world around you' Robin Ince Our sun drives the weather, forms the landscape, feeds and fuels - but sometimes destroys - the creatures that live upon it, controls their patterns of activity, makes chemicals in the skin that cheer up those who bask in its rays, and for the ancients was the seat of divine authority. In *Here Comes the Sun*, Steve Jones shows how life on Earth is ruled by our nearest star. It is filled with unexpected connections; between the need to stay cool and man's ability to stand upright, between the power of memory and the onset of darkness, between the flow of solar energy through the plants and animals and of wealth through society, and between Joseph Goebbels' 1938 scheme to make Edinburgh the summer capital of a defeated Britain and the widening gap in the life expectancy of Scottish men compared to that of other European men brought on by that nation's cloudy climate. Its author charts some of his own research in places hot and cold across the globe on the genetic and evolutionary effects of sunlight on snails, fruit-flies and people and shows how what was once no more an eccentric specialism has grown to become a subject of wide scientific, social and political significance. Stunningly evocative, beautifully written and packed full of insight, *Here Comes the Sun* is Steve Jones's most personal book to date. Over 30 symptoms of depression, including fatigue, changes in appetite, sleep problems, irritability, and guilt, are explored in this practical handbook that outlines an effective program for finding the way out of depression. " ... Concise explanations and descriptions - easily read and readily understood - of what we know of the chain of events and processes that connect the Sun to the Earth, with special emphasis on space weather and Sun-Climate."--Dear Reader. Good morning, Dillydale! What does Little Miss Sunshine do when she finds a bus on her lawn? Leads a singing tour through Dillydale, of course! She's also riding horses, throwing parties and judging Dillydale's favorite talent show, "Dillydale's Got Talent!" Is there anything Little Miss Sunshine can't do? -- VIZ Media Wade Abbott is one and done—one look, one conversation, one weekend, and he knows who he wants. Except, Mia Simpson is not free to return his affection. In fact, he suspects she's in an abusive marriage, but she never confirms that, and he has no choice but to mind his own business where she's concerned. Two years

after they first met and a year after he last heard from her, Mia shows up half-frozen, bruised and beaten on his doorstep, needing something only Wade can provide. Mia has never forgotten the kind, gentle sexy guy who made her heart sing from the first time she met him. She only cut off contact with him because she feared for his safety and hers and takes the first opportunity she gets to make a run for what she really wants—Wade. But nothing is ever as simple as happily ever after. With issues from her past still haunting them, and Wade's family questioning the motives of a woman they've never met, Wade and Mia will have to fight for their happy ending. The sun is essential for human life. This book introduces students to the concept of the sun and discusses its importance. With images that are easy to identify and clear, simple sentence structures, this science reader simplifies scientific concepts for young students as they improve their reading skills. A fun and easy science experiment and Your Turn! activity provide more in-depth opportunities for additional learning. Nonfiction text features include a glossary and an index. Engage students in learning with this dynamic text! This book examines the history, politics, and economics of alternative energy. Since the energy crisis of the 1970s, governments around the world have subsidized and otherwise incentivized alternative forms of energy to reduce dependence on fossil fuels. This search has taken on added urgency in the twenty-first century, as the specter of climate change has engendered ambitious state-level renewable portfolio standards, enhanced federal incentives, and inspired “100% renewable” electrical generation targets in such states as Vermont and Hawaii. To save the planet from destruction, wind, solar, and other renewable energy alternatives must replace fossil fuels. But how did we get here and what is the cost? After an in-depth study of the Carter administration's synthetic fuels program, the focus shifts to the two most prominent, perhaps most promising, and certainly most promoted—and government subsidized—“green” and “renewable” energies today: wind and solar. Because wind has made the most headway and drawn the most controversy, it receives the most attention. Although the primary focus is on the American experience with renewable energy, the policies and politics of renewables in Scotland, Wales, Denmark, Spain, and other European nations are also discussed. Issues considered in the book include the nature and efficacy of renewable subsidies; the employment of federal and state tax codes to encourage renewables; the lobbies and interest groups that campaign for government support of renewables; and the fierce battles over the siting of renewable facilities. Unlike other works on this subject, the book probes in depth the nature of the opposition to wind and solar, both in the matter of siting and in their worthiness as recipients of substantial government assistance. Best Books of 2019: Washington Post • O, The Oprah Magazine • Time • NPR • People • BuzzFeed A TODAY Show #ReadWithJenna Book Club Selection Winner • Lambda Literary Award [Lesbian Fiction] A Washington Post Lily Lit Club Selection Longlisted • PEN/Faulkner Award for Fiction American Library Association • A Barbara Gittings Literature Award Honor Book (Stonewall Book Awards) Finalist • Aspen Words Literary Prize Apple Books • Best Books of the Month New York Times Book Review • Editors' Choice Selection Kirkus Reviews • Most Memorable Fictional Families of 2019 Longlisted • The Morning News Tournament of Books A Rumpus Book Club Selection A beautifully layered portrait of motherhood, immigration, and the sacrifices we make in the name of love from award-winning novelist Nicole Dennis-Benn. Heralded for writing “deeply memorable . . . women” (Jennifer Senior, New York Times), Nicole Dennis-Benn introduces readers to an unforgettable heroine for our times: the eponymous Patsy, who leaves her young daughter behind in Jamaica to follow Cicely, her oldest friend, to New York. Beating with the pulse of a long-withheld confession and peppered with lilting patois, Patsy gives voice to a woman who looks to America for the opportunity to love whomever she chooses, bravely putting herself first. But to survive as an undocumented immigrant, Patsy is forced to work as a nanny, while back in Jamaica her daughter, Tru, ironically struggles to understand why she was left behind. Greeted with international critical acclaim from readers who, at last, saw themselves represented in Patsy, this astonishing novel “fills a literary void with compassion, complexity and tenderness” (Joshunda Sanders, Time), offering up a vital portrait of the chasms between selfhood and motherhood, the American dream and reality. NEW YORK TIMES BESTSELLER • A beautifully written, witty memoir that is also an immersive exploration of classical music—its power, its meanings, and what it can teach us about ourselves—from the MacArthur “Genius” Grant-winning pianist “Jeremy Denk has written a love letter to the music, and especially to the music teachers, in his life.”—Conrad Tao, pianist and composer In Every Good Boy Does Fine, renowned pianist Jeremy Denk traces an implausible journey. His life is already a little tough as a precocious, temperamental six-year-old piano prodigy in New Jersey, and then a family meltdown forces a move to New Mexico. There, Denk must please a new taskmaster, an embittered but devoted professor, while navigating junior high school. At sixteen he escapes to college in Ohio, only to encounter a bewildering new cast of music teachers, both kind and cruel. After many humiliations and a few triumphs, he ultimately finds his way as a world-touring pianist, a MacArthur “Genius,” and a frequent performer at Carnegie Hall. Many classical music memoirs focus on famous musicians and professional accomplishments, but this book focuses on the everyday: neighborhood teacher, high school orchestra, local conductor. There are few writers capable of so deeply illuminating the trials of artistic practice—hours of daily repetition, mystifying advice, pressure from parents and teachers. But under all this struggle is a love letter to the act of teaching. In lively, endlessly imaginative prose, Denk dives deeply into the pieces and composers that have shaped him—Bach, Mozart, and Brahms, among others—and offers lessons on melody, harmony, and rhythm. How do melodies work? Why is harmony such a mystery to most people? Why are teachers so obsessed with the metronome? In Every Good Boy Does Fine, Denk shares the most meaningful lessons of his life, and tries to repay a debt to his teachers. He also reminds us that we must never stop asking questions about music and its purposes: consolation, an armor against disillusionment, pure pleasure, a diversion, a refuge, and a vehicle for empathy. "Come to A Raisin in the Sun as you would to any classic. It speaks to us today as it did almost half a century ago." Bonnie Greer In south side Chicago, Walter Lee, a Black chauffeur, dreams of a better life, and hopes to use his father's life insurance money to open a liquor store. His mother, who rejects the liquor business, uses some of the money to secure a proper house for the family. Mr Lindner, a representative

of the all-white neighbourhood, tries to buy them out. Walter sinks the rest of the money into his business scheme, only to have it stolen by one of his partners. In despair Walter contacts Lindner, and almost begs to buy them out, but with the help of his wife, Walter finally finds a way to assert his dignity. *A Raisin in the Sun* was the first play written by a Black woman to be produced on Broadway and won the New York Drama Critics Circle Award. Hansberry was the youngest and the first Black writer to receive this award. Deeply committed to the Black struggle for equality and human rights, Lorraine Hansberry's brilliant career as a writer was cut short by her death when she was only 34. This new, updated edition in Methuen Drama's Modern Classics series includes the full, definitive text and a brand new introduction by Soyica Colbert.

George Harrison on George Harrison is an authoritative, chronologically arranged anthology of Harrison's most revealing and illuminating interviews, personal correspondence, and writings, spanning the years 1962 to 2001. Though known as the "Quiet Beatle," Harrison was arguably the most thoughtful and certainly the most outspoken of the famous four. This compendium of his words and ideas proves that point repeatedly, revealing his passion for music, his focus on spirituality, and his responsibility as a celebrity, as well as a sense of deep commitment and humor.

No Marketing Blurb The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerical predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. In search of independence and starting a new life, Kaya Malhotra, a simple girl hailing from Dehradun moves to the city of dreams - Mumbai, with certain expectations about how life would be. Her expectations are shot down and she experiences things she never thought she would. This story is a touching, sometimes deep, yet a positive account of the lessons she learnt through her encounters with different people. But do you know the one thing that never left her throughout her journey of falling and re-discovering herself? - The Beatles. As the greatest rock and roll band of all time, the Beatles rocketed to worldwide fame soon after their 1964 arrival in the United States. Much of their achievement can be attributed to the unique Beatle sound, but it was more than just the music that catapulted them to the summit of success, and kept them there even after the band ceased touring and broke apart. How the Beatles both failed and triumphed as businessmen and the lessons today's entrepreneurs and business leaders can draw from this unique journey is the subject of *Come Together: The Business Wisdom of the Beatles*. Authors Richard Courtney and George Cassidy recount the band's many exploits, from its early struggles in Hamburg to the success of Sgt. Peppers Lonely Hearts Club Band and beyond, revealing from a business perspective what worked and what didn't. More than the music, this book explores what it took to pass the audition. All is not well with the universe - cutbacks have taken their toll, and the sun is dirty and late, thanks to being 30 billion miles overdue on its next service. None of the committees can agree on anything, and extreme measures seem called for. Acclaimed Beatles historian Kenneth Womack offers the most definitive account yet of the writing, recording, mixing, and reception of *Abbey Road*. In February 1969, the Beatles began working on what became their final album together. *Abbey Road* introduced a number of new techniques and technologies to the Beatles' sound, and included "Come Together," "Something," and "Here Comes the Sun," which all emerged as classics. Womack's colorful retelling of how this landmark album was written and recorded is a treat for fans of the Beatles. *Solid State* takes readers back to 1969 and into EMI's *Abbey Road Studio*, which boasted an advanced solid state transistor mixing desk. Womack focuses on the dynamics between John, Paul, George, Ringo, and producer George Martin and his team of engineers, who set aside (for the most part) the tensions and conflicts that had arisen on previous albums to create a work with an innovative (and, among some fans and critics, controversial) studio-bound sound that prominently included the new Moog synthesizer, among other novelties. As Womack shows, *Abbey Road* was the culmination of the instrumental skills, recording equipment, and artistic vision that the band and George Martin had developed since their early days in the same studio seven years earlier. A testament to the group's creativity and their producer's ingenuity, *Solid State* is required reading for all fans of the Beatles and the history of rock 'n' roll. "Here Comes the Sun" is an exhibition on cosmology, time, and our most prominent celestial body. The exhibition will occupy all of Magasin 3 Stockholm Konsthall with a wide array of works. Among these is Rivane Neuenschwander's installation visualizing the passage of time with the help of water drops; Olafur Eliasson's model of a house based on how the sun's rays fall on the Swedish capital, which is a component in his installation "Stockholm Solar Lab"; Tobias Rehberger's "7 ends of the world", featuring 222 hand-blown glass lamps that correspond in real time to the light in various parts of the world; a film by Tacita Dean central to her work in which she tracks a solar eclipse, following the course of events before, during, and after; and a living eco-system in a fish pond by Avital Geva, whose concern is with nature and time" (résumé internet ;

[http://artdaily.com/index.asp?int\\_sec=2&int\\_new=14719&b=mart%EDnez#.Vt7ws0ZfF8E](http://artdaily.com/index.asp?int_sec=2&int_new=14719&b=mart%EDnez#.Vt7ws0ZfF8E) ; consulté le 08.03.2016). Our sun drives the weather, forms the landscape, feeds and fuels - but sometimes destroys - the creatures that live upon it, controls their patterns of activity, makes chemicals in the skin that cheer up those who bask in its rays, and for the ancients was the seat of divine authority. In *Here Comes the Sun*, Steve Jones shows how life on Earth is ruled by our nearest star. It is filled with unexpected connections; between the need to stay cool and man's ability to stand upright, between the power of memory and the onset of darkness, between the flow of solar energy through the plants and animals and of wealth through society, and between Joseph Goebbels' 1938 scheme to make Edinburgh the summer capital of a defeated Britain and the widening gap in the life expectancy of Scottish men compared to that of other European men brought on by that nation's cloudy climate. Its author charts some of his own research in places hot and cold across the globe on the genetic and evolutionary effects of sunlight on snails, fruit-flies and people and shows how what was once no more an eccentric specialism has grown to become a subject of wide scientific, social and political significance. Stunningly evocative, beautifully written and packed full of insight, *Here Comes the Sun* is Steve Jones's most personal book to date. Learn about the sun and all that it does for us! The sun shines, gives us light, keeps us warm, helps plants grow, gives us energy, and

more. We really need the sun. The vibrant images and easy-to-read text in this science reader will keep students engaged from cover to cover! This reader also includes instructions for an engaging science activity and practice problems to give students further understanding of the sun. A helpful glossary and index are also included for additional support. This 6-Pack includes six copies of this title and a lesson plan. A YOGA MEMOIR At thirty, Californian Leza Lowitz is single and traveling the world, which suits her just fine. Coming of age in Berkeley, California, during the sexual and feminist revolutions of the 1970s, she learned that marriage and family could wait. Or could they? When Leza moves to Japan and meets the man of her dreams, her heart opens in ways she never thought possible. But she's still an outsider, and home is far away. Rather than struggle to fit in, she opens a yoga studio and makes a home for others. Then, at forty-four, Leza and her Japanese husband seek to adopt—in a country where bloodlines are paramount and family ties are almost feudal in their cultural importance. She travels to India to work on herself and back to California to deal with her past. Something is still not complete until she learns that when you give a little love to a child, you get the whole world in return. This inspiring memoir reflects the author's deep connection to yoga that allows her to realize that infertile does not mean inconceivable. Through teaching, meditation, and community, she transcends her struggles and embraces the joys of adoption and motherhood. Leza Lowitz lives in Tokyo with her husband, the writer Shogo Oketani, and their ten-year-old son. She has edited and published over seventeen books, many on Japan, and has run her own yoga studio in Tokyo for a decade. She travels throughout Japan and Asia to teach yoga and write. Her debut YA novel, *Jet Black and the Ninja Wind*, won the 2013–2014 Asian/Pacific American Award in Young Adult Literature. A fascinating read. -Associated Press

Joshua Greene, who studied meditation with the legendary Beatle George Harrison, draws on personal remembrances, recorded conversations, and firsthand accounts to create a moving portrait of Harrison's spiritual life, his profound contribution to the Beatles' music, and previously unpublished anecdotes about his time with music legends Bob Dylan, Elvis Presley, and others. "Many well-known artists have touched people's hearts with their music, but few have ever succeeded in touching people's souls. That was George's gift, and his story is described here with affection and taste. A wonderful book." -Mia Farrow

Offers a rare inside view of the Beatles and the cultural revolution of which they were a part, with a personal recollection of Harrison's evolution as a musician and composer. This is a great book to pick up over a cup of coffee as the stories are short and entertaining. Brian Wilson's short stories have been described as being like a box of chocolates, each one being delightful but quite different. Some of the stories are humorous, while others are thought provoking, and there is a story for everyone. Hold on tight as Wilson takes you on a journey through life. Look out for the twists and turns on the way. Wilson has been described as a master of short story twists. Here Comes the Sun Perhaps? will take you on a journey through the spring of life, leaving behind winter the Bumpy Roads (his previous book). The dark clouds have now parted and the sun emerges, promising new beginnings and a warmer approach to life. But life is never predictable, and the best of plans sometimes fall apart and the humour of life surfaces. Brian Wilson's collection comprises thirty entertaining short stories plus the contribution by a new short story writer. The stories are set in New Zealand, China, Japan, England, Zambia, India, and Fiji. Brian Wilson is well travelled and uses his overseas experiences as a basis for these stories. Having an MA (honours) in psychology, he understands how people tick, and his characters are very real and his stories true to life. 'A warm, nurturing, optimistic, sunny story.' Sue Teddern, author of *Annie Stanley*, *All at Sea* It's never too late for a new beginning... Steph Herrington runs a successful hair salon - she can make your hair look amazing but she's no gardener. An allotment was her late husband's dream. But when her daughter, Jessie, decides to take the plot on in her dad's memory, Steph sees a chance to bridge the gulf that grew between them as their loving, close-knit family fell apart... Only the gnarly tangle of weeds and thorns - and working together to tame it - is much harder than they'd imagined. But as winter turns to spring and fruits and vegetables start to flourish - and with the support of Jessie's loyal friend, Hog, and handsome fellow plot-holder and single dad, Richard - can Steph and Jessie's relationship grow back stronger than ever? A heartwarming and uplifting novel about community, family, and finding yourself again after a loss. Perfect for fans of Catherine Alliot, Fanny Blake and Fiona Gibson. John Lennon called himself a working class hero. George Harrison was a working class mystic. Born in Liverpool as the son of a bus conductor and a shop assistant, for the first six years of his life he lived in a house with no indoor bathroom. This book gives an honest, in-depth view of his personal journey from his blue-collar childhood to his role as a world-famous spiritual icon. Author Gary Tillery's approach is warmly human, free of the fawning but insolent tone of most rock biographers. He frankly discusses the role of drugs in leading Harrison to mystical insight but emphasizes that he soon renounced psychedelics as a means to the spiritual path. It was with conscious commitment that Harrison journeyed to India, studied sitar with Ravi Shankar, practiced yoga, learned meditation from the Maharishi Mahesh Yogi, and became a devotee of Hinduism. George worked hard to subdue his own ego and to understand the truth beyond appearances. He preferred to keep a low profile, but his empathy for suffering people led him to spearhead the first rock-and-roll super event for charity. And despite his wealth and fame, he was always delighted to slip on overalls and join in manual labor on his grounds. At ease with holy men discussing the Upanishads and the Bhagavad Gita, he was ever the bloke from Liverpool whose father drove a bus, whose brothers were tradesmen, and who had worked himself as an apprentice electrician until the day destiny called. Tillery's engaging narrative depicts Harrison as a sincere seeker who acted out of genuine care for humanity and used his celebrity to be of service in the world. Fans of all generations will treasure this book for the inspiring portrayal it gives of their beloved "quiet" Beatle. Everyone knows how a day goes. The sun rises and shines above us with his glorious smile. At the end of the day, he disappears over the horizon. But what people don't know is what the sun gets up to after he goes home . . . The sun loves to make people happy. But beneath his glorious smile, he doesn't always feel so shiny. At the end of the day, when the sun goes home, he sometimes feels a little lonely. The sun believes he has no choice but to carry on shining, no matter what ... until one day, disaster strikes. He finds himself falling from the sky! Will anyone hear his call and come to

help him? A problem shared is a problem halved in this warm and original bedtime story about friendship, emotions and kindness.
