Urdu/Hindi: An Artificial Divide Mar 28 2021 In a blow against the British Empire, Khan suggests that London deliberately set India's Hindu and Muslim populations against each other in the 1800s by artificially splitting their one language in two, then burying the evidence in obscure scholarly works outside the public view. "Divide and rule" - the British were experts at that. All language is political - and so is the boundary between one language and another. The author analyzes the origins of Urdu, one of the earliest known languages, and propounds the iconoclastic views that, (1) Hindi came from pre-Aryan Dravidian and Austric-Munda (rooted in the Middle East/Mesopotamia), not from Aryan Sanskrit, and (2) Hindi's script came from the Aramaic system, similar to Greek. Urdu/Hindi: An Artificial Divide integrates the "out of Africa" linguistic evolution theory with the fossil linguistics of the Middle East, and discards the theory that Sanskrit descended from a hypothetical proto-Indo European language and by degeneration created dialects, Urdu/Hindi and others. It shows that several tribes from the Middle East created the hybrid by cumulative evolution. The oldest groups, Austric and Dravidian, starting in 8000 BC, provided the grammar/syntax plus about 60% of vocabulary, Sanskrit added 10% after 1500 BC and Arabic/Persian 20-30% after AD 800. The book reveals Mesopotamia as the linguistic melting pot of Sumerian, Babylonian, Elamite, Hittite-Hurrian-Mitanni, with a common script and vocabularies shared mutually and passed on to Indo-European, Sanskrit, Dravidian, Arabic and then to Hindi/Urdu; in fact the author locates oldest evidence of Sanskrit in Syria. The book exposes the myths of Sanskrit or Hebrew as "revealed" languages and examines the fiction of linguistic races, i.e. Aryan, Semitic. The book supports the "one world concept" and reveals the potential of Urdu/Hindi to unite all genetic elements, races and regions of the Indo-Pakistan sub-continent. Khan bolsters his hypothesis with copious technical linguistic examples and quotes masters of Urdu/Hindi prose and poetry of the last three centuries, showcasing the passionate expressiveness of the language. * Abdul Jamil Khan, MD, served as chairman of a teaching hospital and as a professor of pediatrics he taught infant speech development in New York. From there, his research has extended into linguistics and history. His impetus stems from his early education, as he learned six languages by 10th grade and had to face political claims regarding "Divine Arabic" and "Divine Sanskrit," and experienced the tragedies of the British division of India and its language.

Rooh - Meeting Soul Oct 03 2021 We exist. We like. We love. We lose. We grieve. We reflect. We move on. We learn. Finally, we live. Each verse and shayari in my poetic endeavour is a sincere, raw and honest reflection of my life's greatest learning's, purest thoughts, and deepest emotions. Written from my heart (dil se), these poems are seemingly ordinary yet powerful everyday emotions, thoughts and situations that we experience but tend to not necessarily ponder upon as we get preoccupied with the mundane aspects of our lives. Based on a combination of intimate observations of the world and deeply personal experiences of the poet, these poems and shayari's cover a myriad range of topics from approaching life with the right mindset to taking control of our circumstances, to living in the moment, to taking risks to succeed in life, to finding faith, to experiencing and exhibiting love, compassion, joy, fear, worry, to dealing with sorrows and failures. Underlying the message throughout the various sections in the book is a heartfelt message of optimism and positivity. Compiling them over a ___ of years, the poet wishes for the readers to pause, assimilate and most importantly relate to her thoughts, hoping to enable a community of shared dialogue and interaction. For when all else fails, there are words. And in the end, words will set us free.

Imagination Dec 25 2020 Imagination is the beginning of creation. It is the eyes of soul. Without leaps of imagination, or dreaming we lose the excitement of possibilities. Imagination is a powerful brain-booster because it makes you think in the way which is not standard for people. Imagination is more important than knowledge. For knowledge is important, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution

Informal Sector Innovations Jul 20 2020 It is well documented that the space of informal economic activity is rising across the globe. This rise has been particularly significant in the least developed and developing countries, especially after the onset of neo-liberal policies and withdrawal of welfare state. There has also been a shift in academic thinking on informal sector, with attempts being made to understand the contribution of informal sector in generating employment and economic growth rather than focusing solely on exploitative labour conditions in these economic activities. Indeed, with the retreat of welfare state and the introduction of contract labour in the formal sector, many issues related to occupational hazards and improper labour conditions do not remain unique to the informal sectors of the economy, particularly in less developed countries. This volume addresses a specific concern: the issue of knowledge generation and innovative activities, which lies at the core of sustained competitive advantage of these activities. The chapters in this book were originally published in the African Journal of Science Technology Innovation and Development.
